THE SECRET ROOM

Step into a world where intrigue, elegance, and mystery collide. Hidden within the grand homes of Edinburgh's New Town, The Secret Room awaits, offering a spellbinding night of magic inspired by a time when high society gathered for evenings of spectacle and wonder.

It's the early 1800s—an era when the great and good flocked to the city for 'the season,' filling their nights with lavish dinners, vibrant conversation, and the allure of the unknown. In this age of progress and invention, curiosity reigned, yet the shadow of Scotland's last witch trial still loomed. The Secret Room brings this tension to life, balancing the fine line between science and sorcery, invention and illusion.

Prepare to be dazzled by feats of magical wonder as you enter a world where the extraordinary feels possible. With every trick and turn, the evening will transport you back to a time when the unexplained wasn't just entertainment—it was the spark of intrigue and imagination.

The magic of Edinburgh's New Town awaits you.
Will you dare to step inside?

Featuring world-class card magician Lewis Barlow, astounding sleight-of-hand artist Tim Licata and captivating magician and mind-reader Lorenzo.

CELEBRATING EDINBURGH 900!

This year our magical city celebrates its 900th anniversary and MagicFest is joining the celebration with a programme of events, talks and exhibitions dedicated to the Magic of Edinburgh.

Uncover fascinating stories of Edinburgh's magical past - there's something for everyone!

MAGICAL EDINBURGH with Edinburgh Young Carers: An Exhibition of Photographic Illusions

As part of 'Edinburgh 900' celebrations, Edinburgh International Magic Festival, Edinburgh Young Carers charity and illusion expert Professor Richard Wiseman have created an innovative, exhibition of mind-bending photographs taken in locations around the city themed around Edinburgh's magical heritage.

Join us on a journey of discovery where the old history of Edinburgh and the magic of young minds collide! Each photograph features young carers (aged 5-17) doing what they do every day of their lives - making the seemingly impossible possible. Can you figure out how they created each illusion?

Enjoy the photos on the wall and watch the video to see behind-the-scenes and learn more about the Edinburgh Young Carers.

OUTREACH PROGRAMME

VIRTUAL MAGIC SCHOOL

Learn to read minds, make objects appear and disappear, and other mysterious skills!

Join Britain's Got Talent semi-finalist Kevin Quantum, your new magic teacher, for an 8-lesson virtual magic course, using cutting edge 'choose your own adventure' technology, allowing participants to have as close to a live workshop experience as modern technology allows.

This classroom resource (designed for 'in school' use) is for children aged 7-10 years old filling a demonstrated need from teachers to offer a creative resource that helps children 'get their school head back on', especially following the prolonged lockdowns and sporadic forced breaks from school. As well as cool magic tricks, children will learn presentation and craft skills, numeracy and literacy skills and much more. Elements are tied to the Scottish and English curricula making it as easy as possible for teachers to integrate this resource into their year and is ready to use "straight out of the box"!

What's more - the course is FREE to any and all schools that want it. Sign up at magicfest.co.uk/vms for more info and to make sure that your school gets access!

"The children felt very special, they felt they had been chosen. They are still excited and enthusiastic about the experience. So many things happen in the world that they cannot 'get to' but this feels like they somehow were special. It has been a huge confidence boost for them, this is so important."

FUTURE MAGICIANS MENTORSHIP PROGRAMME

Following successful pilots in 2022 and 2023, we are further developing our "Future Magicians" mentorship program, aimed at providing young magicians (aged 12-18) with targeted professional development, culminating in a live performance at the Festival.

Outside of London, there are no in-person resources for young people aged 12 and over interested in magic performance. Our mentorship has supported ten young magicians so far, but we aim to reach many more. We want to offer a complete journey, starting from our introductory workshops for children aged 7, through to young adults, whom we hope to provide with performance opportunities at the festival.

Our goal is to create a suite of high-quality in-person and virtual resources for student magicians who want to 1) join a larger learning community, 2) explore and benefit from the wider theatrical arts, and 3) advance to a higher level of performance.

"Future Magicians" has attracted significant public interest over the past two years, with features in The Guardian and segments on STV and BBC Scotland news and radio. If you'd like to join or support this exciting program, visit magicfest.co.uk/whats-on/future-magicians.
